

JOB POSTING no. KAP-2017-11

Millwright – Hydro Mechanic, Part-time and Full-Time Positions – Kapuskasing

Hydromega Services Inc., an independent renewable energy producer, owns and operates four hydroelectric generating stations on the Kapuskasing River near the town of Kapuskasing, Ontario and one hydroelectric generating station on the French River near the Dokis First Nation. Hydromega is currently looking for qualified candidates to fill the position of Millwright – Hydro Mechanic on a part-time basis and/or full-time. The position will be effective as soon as possible.

Under the authority of the Manager – Maintenance & Major Projects, the Millwright – Hydro Mechanic, is responsible for the daily and special mechanical maintenance needs of all the mechanical equipment and infrastructures such as turbines, generators, overhead cranes, intake and tailrace gates, rubber dams, hydraulic power units (HPU), pneumatic equipment, HVAC and water treatment equipment. He will also support the organization in the day-to-day troubleshooting and operation of the generating stations and dams in order to maximize their long term energy output.

Candidate profile

- Certificate or diploma of collegial studies in mechanics, processes, and/or electromechanics;
- Certified industrial mechanics millwright in the province of Ontario such as trade #433A;
- Must have a minimum experience of 5 years in generating station's operations or industrial processes;
- Knowledge and experience with heavy machinery and hydraulic circuits;
- Must be able to interpret technical drawings (civil, mechanical, electrical), specifications and wiring diagrams;
- Basic knowledge of the operations of a generating station and good knowledge of the safety aspects;
- Computer and software skills;
- Excellent communication skills in French and English – written or spoken.

Attributes

- Plans and executes his work autonomously;
- Can work in a remote area;
- Shows much alertness, rigor and precision in his work;
- Works with method, knows how to organize his tasks and information, manage priorities;
- Is proactive, knows how to anticipate problems;

- Is not disturbed by unanticipated situations and adapts to urgent situations;
- Shows a desire for team work;
- Meets the physical requirements of the work such as working in deep or high places as well as in confined spaces;
- Is available for traveling from time to time;
- Possesses a valid driver's license with a record in order permitting proper insurance policy;
- Impeccable integrity, which can be verified through a security investigation.

The Millwright – Hydro Mechanic will normally work regular day hours but may be asked from time to time to work overtime and provide 24h/day on call coverage. Weekend work may be required and Hydromega needs to be able to reach this individual within a reasonable amount of time.

Part-Time Position

- The Millwright – Hydro Mechanic, Part-time position hours may swing considerably, ranging from nothing to a full 40hrs per week based on the needs of Hydromega and the availability of the candidate. A competitive salary will be offered to the suitable candidate.

Full-Time Position

- The Millwright – Hydro Mechanic, Full-Time Position must be willing to be relocated as to stay near the generating stations during his work schedule. A competitive salary and employee benefits will be offered to the selected candidate.

Candidates who wish to apply may do so by sending their Resumé, along with an introduction letter, to the following e-mail address: general@hydromega.com. Please make sure to reference the job posting number in the object of your e-mail and the type of position (Full or Part-Time).
