

JOB POSTING no. CPC-2019-01

Cochrane Dormant Generating Station Operator, Part-time Position

Hydromega Services Inc., an independent renewable energy producer, owns and operates four hydroelectric generating stations on the Kapuskasing River near the town of Kapuskasing, Ontario, one hydroelectric generating station on the French River near the Dokis First Nation, Ontario and one dormant cogeneration facility in Cochrane, Ontario. Hydromega is currently looking for a qualified candidate to fill the position of Dormant Generating Station Operator on a part-time basis for its Cochrane facility. The position will be effective as soon as possible.

Under the authority of the Manager - Operations & Asset Management, the Dormant Generating Station Operator, Part-time Position is responsible for the day-to-day monitoring, surveillance and maintenance of the current layup mode of the generating station. More specifically, he will:

1. Monitor the facility on a daily basis to ensure electricity and heat are functional;
2. Make sure the video monitoring and cameras are functional and that all access to the power plant are secured;
3. Perform the necessary actions and maintenance tasks to maintain the power plant in its current layup mode;
4. Perform other duties as required by the management regarding the security and layup mode of the power plant;
5. Report its observations to the Montreal head office;
6. Assist during site visits and during various evaluations of the assets by employees or any third party identified by Hydromega.

Candidate profile

- 2nd Class Operating Engineer (certification current or expired);
- Must have a minimum experience of 5 years in steam and/or gas turbine operations;
- Certificate or diploma of collegial studies in electromechanics, electrotechnology, electricity, processes and/or mechanics;
- Knowledge and experience with electrical circuits, PLC, hydraulic circuits and heavy machinery;
- Must be able to interpret technical drawings (civil, mechanical, electrical), specifications and wiring diagrams;
- Basic knowledge of the operations of a generating station and good knowledge of the safety aspects;
- Computer and software skills (Word, Excel, Outlook, Powerpoint);
- Excellent communication skills in French and English – written or spoken.

Attributes

- Plans and executes his work autonomously;
- Shows much alertness, rigor and precision in his work;
- Works with method, knows how to organize his tasks and information, manage priorities;
- Is proactive, knows how to anticipate problems;
- Is not disturbed by unanticipated situations and adapts to urgent situations;
- Shows a desire for team work;
- Meets the physical requirements of the work such as working in deep or high places as well as in confined spaces;
- Is available for traveling from time to time;
- Possesses a valid driver's license with a record in order permitting proper insurance policy;
- Impeccable integrity, which can be verified through a security investigation.

The Dormant Generating Station Operator, Part-time position hours may swing considerably, ranging from 5 to 20hrs per week based on the needs of Hydromega and the availability of the candidate. The Dormant Generating Station Operator, Part-time position will normally be allowed to plan himself his working hours but may be asked from time to time to work at specific time and provide 24h/day on call coverage. Weekend work may be required and Hydromega needs to be able to reach this individual within a reasonable amount of time.

A competitive salary will be offered to the suitable candidate.

Candidates who wish to apply may do so by sending their Resumé, along with an introduction letter, to the following e-mail address: general@hydromega.com. Please make sure to reference the job posting number in the object of your e-mail.
